ACTIVATED CARBON FILTER MEDIA

FOR HIGH-PERFORMANCE ePM1 FILTERS

A leading supplier of filtration solutions, Freudenberg Performance Materials is launching yet another range of activated carbon filter media. Marketed under the brand name Filtura, the new media meet the requirements of ePM1 filters.

Experience the new dimension of activated carbon filter media!

- Optimized for pure mechanical filtration
- Separates more than 70% of PM1-particles
- High adsorption efficiency with variable activated carbon content
- Available with additional functionality
- Excellent pleatability
- Customized multilayer product variants available tailored to individual requirements
- Customer-specific roll dimensions possible

Does your filter system require more than a filter medium, which contributes to maximum filtration efficiency alone? Filtura activated carbon filter media can be upgraded with additional functionality:

- Antiviral behavior
- Flame retardancy
- Hydrophobic properties
- Antimicrobial functionality

Reach out to us today to turn today's idea into tomorrow's innovation!
